4. KITCHEN		
Fridge:	If dishwasher is done. Leave door open to dry. Place kitchenware in respective cabinet/drawer, clean with a rag stuck food remains.	
Stoves, Oven & Extractor:	Clean inner stands with 2 rags. One for visible dirt and second one for polishing. Pantry is very important. Inner and outer doors should be fingerprint free, as well as the door bars. Wipe over the hood fan as it accumulates dust and grease. Check if grease filters are clean and use a rag to drop grease, clean fingerprints from buttons and panels. If gas stoves, remove grills and perform a cleaning on surface and grills. If glass stove, wipe out and use magic eraser over food spills. In any case use several rags to leave it shiny and avoid the opaque-greasy look. Oven control panels and knobs must be carefully-individually wiped out for better results. For oven, focus in the door interior and exterior: handle, glass and metal. If bottom drawer present, open it and check it for grease, spills and crumbs. While we do not have time for a interior oven cleaning, replace or add an aluminium foil sheet in the interior.	
Appliances & Light Fixtures:	Dust all light fixtures. Clean the inside and outside of the: oven/stoves, fan, microwave, refrigerator and dishwasher. Also, coffee machines, toasters and additional devices.	
Kitchen tiles & Outlets:	Spray/clean/wipe any spills and grease also in power outlets and switches.	
Kitchen countertops:	Spray/clean all surfaces. Lift any object on it. Spray/clean additional kitchenware over it, such as trays, dish racks, etc.	
Bottom drawers, All cabinets & under sink:	Spray/clean/wipe any spills. Look for crumbs, specially where the toaster goes. Check for spills between drawers, inside and outside doors. Move kitchenware/supplies out if needed. Disinfect the garbage can and replace the trash bag/liners. Check around the area for dirt or water leaks.	
kitchenware/dishes:	Wipe out and dry. Save up in cabinets, making sure there are no stuck food on them. Wash manually if needed.	
Kitchen Isle:	Many times units has not dining table and the kitchen isle is the place where guests eat. It may also have cabinets, drawers or even	

TASK	DESCRIPTION	TIME ALLOTMENT
Sink, Faucets & Drains:	sink. Cleared out, spray/clean surface and 4 wall sides. Clean chairs if present. If the isle has underneath storage, please check the area. Make sure drains are not clogged. TASK	DESCRIPTION	TIME ALLOTMENT
7. FINAL INSPECTION	sive areas will require 2 or more pads. Wooden baseboards accumulates dust and hair on it, and can get easily stained between guests, so please be mindful. The Final Inspection is a quick check of your work before leaving the unit and it is mandatory. Doing so, we assure the cleaning was executed in the right way and meets the expectations. Critical Areas: • Under Beds • Tubs/showers (look for hair, also on walls) • Toilet (bases, for urine. Inside bottom, for missing dirt) • Beds (Hair over/between pillows and top) • Nightstands or sidetables (Backside for bottles, napkins, etc) • Mirrors (Prints, grease, hair) • Sinks/vanitories (hair and missing spots) Observe granite and wood surfaces backlit and from different angles/perspectives for spills of transparent and sticky liquids. Using a rag, open all drawers, closing them immediately. This is to make sure you did not missed anything. Check overall bedroom cleaning. Go to the living room and check seats, couches, sofas for hair. Check any table for cleaning mistakes. Make sure any covered-by-table floor is properly clean. Check overall living room cleaning. Check the kitchen. Turn off lights. Set curtains as requested by host. Make sure you don't leave behind own cleaning equipment/supply. Close and lock the door. Double-check door is locked.	3 Minutes
